## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Christie (U.S. Patent No. 5,881,960).

With respect to Claims 1-10 and 16-24, Christie, Figure 4, teaches a storage device comprising: a tape drive; a spindle 126 in the tape drive; a probe 162 positioned in the spindle, wherein the probe engages an opening in the center of a hub in a cartridge as the cartridge is inserted in the tape drive; a hollow stem; a spring 170 in the hollow stem; a stop portion positioned in one end of the hollow stem.

With respect to Claims 11-15, the method described in these claims would inherently result from the use of the tape drive of Christie as advanced above.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
